1. RESPONSE: This teaching assistant really helped me through the class. He was always prompt to his office hours and was willing to stay after his office hours to help students. He has a passion for the material which showed in the way he taught the material and helped students. Rohan was very patient when it came to solving coding errors as well. I have succeeded in this class because of this teaching assistant and I am very grateful. His ability to teach the material in ways that the students can understand was very helpful for me.
