<ul style="list-style-type: none"> • n/a • I loved learning concepts from Rohan Garg since he explained complicated concepts in a simple yet succinct manner. • Love your friendliness and you are great at answering questions in a way that makes sense but also doesn't give away the answer. • All of the TAs in my PSO this semester were phenomenal. They were really good at giving us the right amount of time to individually develop our solutions to each problem and then have an in depth discussion where they guided us to the solution if needed but helped us think through the problem through the discussion before doing so. • The existence of the PSO is helpful. • He is very friendly and also takes the time to explain any concepts we are confused on. • Very good TA. Very good in explaining and articulate with words. Sometimes I feel like your mind is too excited to the words that come out aren't as clear but this was rare. Very good TA and is someone I would like to know outside of class as well. • Rohan was a very nice TA who always tried his hardest to help students during PSO and office hours 	

16 - Make a suggestion(s) for improving the course (a criticism alone is not helpful; tell your instructor how you would fix any problem).

<ul style="list-style-type: none"> • n/a • Sometimes we did not finish all PSO questions on time. • Existence of a PSO alone does not really help. The practice problems are not always similar to the homework material, and the TA's rarely get through all of the material in the time allotted. This creates a frustrating environment that does not adequately provide help for a very difficult course. • If we could go through the entire answer, I believe it would be helpful, but I also understand that there is limited time. • Idk, more office hours
